1. This Office Action is in response to Applicant's Amendment after Final Action dated August 19, 2005 in response to USPTO Final Office Action dated July 28, 2005.

3. The following is an examiner's statement of reasons for allowance:

Relative to claims 1 and 4-5, the major difference between the teachings of the prior art of record (USP 5,798,788, Meehan and USP 5,748,165, Kobuta et al.) and that of the instant invention is that said prior art of record **does not teach** a circuit for displaying a video signal with means for alternately selecting the first display field only for a first time period lasting longer than the video field period, and then the second display field only for a second time period lasting longer than the video field period; and means for supplying, for each video field period, the video lines of the video signal to the display lines of the selected display field, wherein the respective time periods are substantially longer than the video field period.
